A Registered Dietician (RD) is a health care professional with expertise in food and nutritional needs of the clients they serve. To qualify for the RD credential, students must complete a bachelor's degree program that is accredited by the Commission of Accreditation for Dietetics Education (CADE) and passed a national examination. A Registered Dietetic Technician (DTR) is trained in food and nutrition care in order to support RDs. To qualify for a DTR credential, students must complete an associate degree dietetic technician program accredited by the CADE and pass a national examination.

CSU Long Beach, CSU Los Angeles, CSU San Bernardino, Cal Poly Pomona, and Loma Linda University have CADE accredited RD programs.

For additional information about Registered Dietician and Registered Dietetic Technician careers, students may explore the following websites:

This guide sheet is based upon university course articulation and catalog information at the time of publication.

Note that students are responsible for the current major requirements upon transfer to the university. It is advisable to consult with a counselor once a semester for any changes that may occur.

In addition to major requirements, students are advised to complete general education requirements. Applications for admission to the transfer universities are evaluated for completion of lower-division major and general education requirements. The Intersegmental General Education Transfer Curriculum (I.G.E.T.C.) is for UC and CSU transfer students. The CSU General Education Breadth (CSU GE-Breadth) requirements are for CSU transfer students. ***Note that many independent universities accept IGETC and CSU GE-Breadth as meeting their lower division general education requirements.***
